

UNIT IV

TOOLS AND TECHNOLOGY FOR DISASTER MANAGEMENT

PART A

S.NO.	QUESTIONS	BTL*
1	What is early warning system (EWS)?	K1
2	List five components of disaster relief.	K1
3	Why is sanitation important in disaster relief efforts?	K1
4	State two reasons for climate change.	K1
5	What role does GIS play in disaster preparedness and response?	K1
6	How does information technology contribute to risk assessment in disaster?	K1
7	What is the purpose of disaster damage assessment?	K1
8	Mention two elements of climate resilient development.	K1
9	What is the significance of standard operating procedures (SOP) in disaster response?	K1
10	Define financial planning in the context of disaster management.	K1
11	What is the role of institutional arrangements in disaster mitigation?	K1

PART B

S.NO.	QUESTIONS	BTL*
1	Explain in detail the various roles of GIS and IT in different phases of disaster.	K3
2	Explain the elements of climate resilient development.	K3
3	Explain early warning system in disaster. (8m)	K3
4	Discuss in detail about the risk assessment in disaster. (8m)	K3
5	Discuss the standard operating procedures (SOP) for disaster response.	K3
6	Discuss different financial instruments and strategies used in disaster risk reduction and recovery.	K3
7	Discuss their role in managing disasters effectively.	K3
